HANDI-TRAVEL-INFO

TRAVELDATABASE FOR DISABLED PERSONS

DATABASE

For years there has been a growing need for a database compiling information on holiday destinations suitable for disabled persons. A database containing all the relevant information on access, toilet facilities, steps and stairs, ramps, lifts, the width of doors, the size and height of beds, the accessibility of the area around the resort and so on.

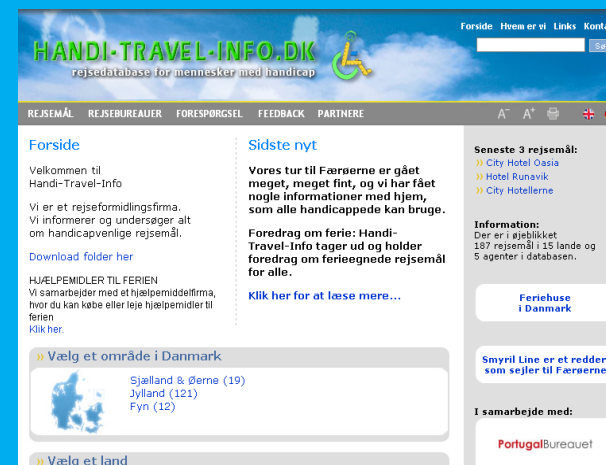

BARRIERS

Disabled persons often come up against barriers when travelling, either because full accessibility has not been taken into account, or because so-called accessible holiday destinations do not live up to the promises made.

QUESTIONNAIRE

To help solving the problems of barriers, we have put together a questionnaire which we use ourselves, when assessing the accessibility of a holiday destination – i.e. a hotel, a resort, or a youth hostel. The questionnaire is also minded for interested travellers in wheelchairs, who can use it for registering the conditions they encounter on their travels – whether the conditions are worth recommending or the opposite.

The questionnaire can be ordered by e-mail : jbs@handi-travel-info.dk or by phone : +45 8611 3777

THE INTERNET

The Internet has found its way into many homes of disabled persons. It is an easy way of communicating even for disabled persons with heavy physical handicaps or no verbal language.

This is the reason why we have made a Homepage, which you can browse through at your own pace. You can also contact us by e-mail if you have specific questions about the holiday destination of your choice. We will do our best to help and give advice on how to solve your travel problems.
